CALIFORNIA HIGH-SPEED RAIL AUTHORITY

January 25, 2010

Mr. Thomas Haglund
City Administrator
City of Gilroy
7351 Rosanna Street
Gilroy, CA 95020

Re: California High Speed Train Project
Maintenance Facility Expressions of Interest

Dear Mr. Haglund,

On behalf of the California High-Speed Rail Authority (Authority), thank you for your expression of interest in identifying potential maintenance facility sites. The Authority received a total of fifteen expressions of interest, all of which will become publically available and will be transmitted to our regional consultants to incorporate in their environmental review of the project. Your submittal is much appreciated and will be thoroughly considered.

The site(s) you identified and described will be included along with other potential sites that either have been or may be identified in the Alternatives Analyses that are currently underway. We assure you that your proposed site(s) will be thoroughly evaluated before recommending a preferred alternative site or sites to the Board. Some of the sites may become infeasible based on a possible narrowing of alternative routes moving through the environmental process or for other reasons. It should be understood that none of the expressions of interest represents a binding commitment; any respondent might decide in the future to withdraw its submittal. These expressions of interest are the first step in the Alternatives Analysis process towards determining the best feasible and practical location. The Authority's environmental review process will include extensive opportunities for public input, which may include additional suggestions of maintenance locations, suggestions that under the law the Authority can neither preclude nor refuse to consider. No final selection of maintenance facility sites will be made until the completion of the environmental review process at least 15 months from now. The method by which a site will actually be selected or the facility constructed has not been determined.

Again, thank you for the time and effort that went into your submittal. The information provided will greatly assist the Authority in ultimately selecting the best sites for these proposed facilities.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Morshed".
